En caso de no obtener la temperatura deseada, seguir las indicaciones de regulación:

If you do not obtain the desired temperature, following the instructions to adjust temperature:

Dans le cas où vous n'obtenez pas la température souhaitée, suivre les indications ci-dessous :

Falls Sie die gewünschte Temperatur nicht erreicht haben, bitte die Regulierungshinweise befolgen:

+

Para aumentar la temperatura hasta conseguir 38° C (100° F)

To increase temperature until 38° C (100° F)

Pour augmenter la température 38° C (100° F)

Temperatur erhöhen 38° C (100° F)

-

Para disminuir la temperatura hasta conseguir 38° C (100° F)

To decrease temperature until 38° C (100° F)

Pour diminuer la température 38° C (100° F)

Temperatur senken 38° C (100° F)

Abrir las entradas de agua y dejar funcionar el mezclador por algunos segundos, hasta obtener una temperatura estable

Open water inlets and let mixer run for a few seconds, until a stable temperature is reached

Ouvrir les entrées d'eau et laisser fonctionner le mélangeur quelques secondes jusqu'à une température stable

Wasserzufluss öffnen, einige Sekunden laufen lassen, bis eine angenehme Temperatur erreicht ist
